

Test shooting Stgw 90 accessories

Would you like to test the sighting components that have already set two Swiss records?

We are offering further test shooting session at Brünig Indoor.

Saturday, february 14, 2026
From 9:00 a.m. to 12:00 p.m.

What's on offer?

We will introduce you to our sighting components, which you can then test immediately in live firing. We will provide the upgraded Stgw 90 rifles.

What do you need for the test days at Brünig Indoor?

Participation is free of charge. Shooters must provide their own ammunition or can purchase it on site.

What's in it for you?

We will advise interested parties on the details of the new sight variants.

We will also explain whether and which existing sight components can continue to be used. You can purchase the new sight components on site and have them mounted on your own assault rifle.

Registration is required for test shooting so that we can avoid waiting times.
Please register by email.

Please let us know:

Last name, first name

Number of people

Left- or right-handed shooter

Registration only per E-Mail to deborah.gruenig@gruenel.ch

You will then receive a confirmation email.
